

Property Damage

HeplerBroom has built its reputation on being able to help clients effectively and efficiently resolve a variety of often complex property damage claims and lawsuits.

Our Approach

We recognize that there is no one-size-fits-all approach to property damage claims. Every case is handled based upon its own set of circumstances and the individual client's needs.

We strive to provide our clients with the best outcome in the most cost-effective manner possible. Often this means pursuing resolution through dispositive motions or achieving favorable pre-trial (or pre-suit) settlements. If trial is required, however, we stand ready to aggressively represent our clients' interests with our team of experienced litigators and experts, as well as advanced litigation technology.

Experienced Trial Lawyers

HeplerBroom's attorneys have successfully tried hundreds of property damage cases to verdict. Our property damage attorneys possess the legal expertise and experience to guide our clients from initial incident investigation through trial and appeal. Our attorneys have been honored for their work in a number of state and national publications. We encourage you to learn more about them by reviewing their biographies [here](#).

Who We Help

We're experienced in working with companies—from Fortune 50 to local family businesses—to help them achieve prompt and effective resolutions of claims and lawsuits. Our clients range from private, family-owned businesses to some of the largest publicly traded companies in virtually every major industry. We have successfully put our recognized expertise to work defending and prosecuting cases in the following areas:

- General negligence
- Products liability
- Motor vehicle/transportation
- Premises liability
- Dram shop
- Construction
- Fires and explosions
- Security
- Fraud and consumer fraud
- Libel and slander
- Intentional torts
- Toxic torts

The choice of a lawyer is an important decision and should not be based solely upon advertisements
